

Shivprasad Pravin Dongapure

+91-8956657409 | Prasaddongapure7660@gmail.com | GitHub | LinkedIn | Portfolio

Summary

- Software developer focused on problem solving, backend systems, and real-time applications. Strong in Data Structures and Algorithms with hands-on experience building scalable applications using MERN stack, Django, and cloud technologies.

Experience

- Software Developer Intern, NTS Nihon Global** | Remote June 2025 – July 2025
 - Worked on full-stack features using React and Node.js, focusing on clean and maintainable code
 - Built and integrated REST APIs, handling authentication and backend logic using JWT
 - Collaborated in an Agile environment, contributing to debugging and improving feature stability
- IoT Intern, SIBIC** | Kolhapur June 2022 – July 2022
 - Developed an IoT-based home automation system using Arduino with real-time monitoring
 - Integrated sensors with cloud dashboards for remote device control and data visualization
 - Worked with MQTT protocol for efficient communication between devices and backend systems

Projects

- AI-Based Intelligent Traffic Management System** | GitHub 2026
 - Built a real-time traffic control system using YOLOv8 for multi-lane vehicle detection
 - Designed adaptive signal scheduling (FCFS, Round-Robin, Sliding Window, Emergency Priority)
 - Integrated FastAPI, Node.js, and React with Socket.io for live monitoring and control
- LinkLoom – Real-Time Communication Platform** | GitHub 2026
 - Developed a full-stack messaging and video platform using WebSockets and Stream API
 - Implemented JWT-based authentication and scalable backend services using Node.js
 - Managed real-time state using React Query and Zustand for efficient data flow
- Chatify – Real-Time Chat Application** | GitHub 2026
 - Built a real-time chat application using React, Node.js, and Socket.io
 - Optimized message delivery and reduced latency in WebSocket communication
- Nyay AI – Legal Assistant System** | GitHub 2024
 - Built an AI-powered legal assistant using Flask and LLM with RAG architecture
 - Improved response accuracy using vector-based retrieval for context-aware answers

Technical Skills

- Languages:** Python, JavaScript, C++, Java, SQL
- Frontend:** React.js, Next.js, Tailwind CSS, HTML, CSS
- Backend:** Node.js, Express.js, Django, REST APIs, JWT Authentication
- Databases:** MongoDB, MySQL, PostgreSQL
- Cloud & DevOps:** AWS (EC2, S3, Lambda), Docker, Kubernetes (Basics), CI/CD, Git
- Core Concepts:** Data Structures, Algorithms, OOP, System Design, SDLC, Problem Solving
- Additional:** WebSockets, API Design, Authentication Systems, Real-time Applications

Education

- B.Tech in Computer Engineering** | Government College of Engineering, Jalgaon 2024 – Present
CGPA: 8.05
- Diploma in Computer Engineering** | ICRE, Gargoti 2021 – 2024
80.81%

Achievements

- Solved 200+ DSA problems on LeetCode
- National Level Hackathon (36-hour participant)
- 2nd Prize – National Level DSA Competition
- 2nd Prize – C Programming and Project Competition
- AWS Academy Cloud Foundations Certified (2026)
- NPTEL: Machine Learning, Deep Learning; Java (Elite + Gold)
